## Information about the collection of personal data

This information is provided in connection with the new Data Protection Regulation (GDPR), which will enter into force on May 25, 2018. GDPR replaces the previous Personal Information Act (PUL) and is a regulation which means that the same rules apply in all EU countries.

This applies to anyone who processes personal data in his business.

The purpose of the new law is to strengthen the privacy of the individual. This means that we need to become more aware of how we handle personal data responsibly.

**The school's personal data management policy can be found at [www.hfs.se](http://www.hfs.se) as of autumn 2018.**
